

City and Council of Swansea is a Winner with Celuform

Celuform, leading manufacturer of PVC-UE roofline, cladding and window finishing products with a strong specification heritage, is pleased to announce City and Council of Swansea's Mark Cart, as the winner of its recent customer competition to win a digital camera.

"We wanted to make sure all our customer details were as up to date as possible," says Tony Crutcher, Sales and Marketing Director of the Celuform brand, "but we also wanted to thank them for their time in helping us get the information we need by offering a prize.

Celuform has completed several contracts with Swansea including two

new projects this year, so we're delighted the winner of our competition has worked at the Council for 14 years."

"I work in the adaptations section of the Regeneration Housing Department," comments Mark. "That means I look after all kinds of adaptations for homes for our disabled tenants.

We hold a library of different products that help us meet our varying needs and when I heard about the competition from one of our suppliers, Celuform, I wanted to enter. Photography is a hobby of mine so it's great to get a better camera to get even better results!"
