

## Primary school gets Espresso treatment

To ensure that a new extension would blend in with the original building's timber finish, Celuform's Espresso Brown PVC-ue soffit and fascia was used at Undy Primary School, Monmouthshire.

Tony Chapman, the head teacher, says: "I am very pleased with the finished result. It looks brilliant."

Celuform offers a wide range of colours to suit all types of building styles and designs. The Espresso Brown helped satisfy planning requirements that the new nursery classroom must complement the other school buildings.

Also, by using Celuform PVC-ue board, the local education authority's target to minimise ongoing maintenance has been satisfied.

Timber has to be treated and painted on a regular basis, whereas Celuform products have a 15-year guarantee on Espresso Brown.

The nursery extension was built by contractor W D Turner, based in Cardiff, and Celuform stockist, DGS Caldicot, supplied the product.
